

Md. Hujaifa Islam Shanto

Full Stack Software Developer

mdhujaifaislamshanto@gmail.com | +8801608215377

[Portfolio](#) | [LinkedIn](#) | [GitHub](#)

Full-stack developer specializing in Next.js and TypeScript, with hands-on experience shipping production web applications including an AI API gateway, multi-role platforms with RBAC, and REST APIs with authentication and third-party integrations.

Technical Skills

Languages: JavaScript, TypeScript

Frontend: Next.js, React, Tailwind CSS, DaisyUI, Shadcn, TanStack Query, React Hook Form, Zod, Axios

Backend & APIs: Node.js, Express.js, REST API, Prisma ORM, JWT, Supabase, Firebase, Better Auth

Database/Services: PostgreSQL, MongoDB, Supabase, Redis

Payments & Web3: Circle, Stripe, Viem, Wagmi, Privy Auth

Tools: Git, Docker, Vercel, Render, Postman

Projects

Novapilot: Next.js, TypeScript, Express.js, Privy Auth, PostgreSQL, Prisma, Redis, Circle | [GitHub](#) / [Live](#)

- Built a unified AI API gateway routing requests across multiple LLM providers through a single authenticated endpoint, abstracting provider-specific APIs behind a consistent interface.
- Implemented USDC-based billing using Circle Developer-Controlled Wallets; automated per-request token metering tracks usage and triggers balance reconciliation in real time.
- Integrated Circle's CCTP protocol to support cross-chain USDC transfers, enabling programmable blockchain-native payment flows without manual fund management.

PrimeHacks: Next.js, TypeScript, TailwindCSS, Express.js, BetterAuth, Prisma, PostgreSQL | [GitHub](#) / [Live](#)

- Built a full-stack platform supporting 3 distinct user roles (organizer, participant, admin), each with isolated data access, separate dashboards, and role-gated API endpoints.
- Implemented submissions, deadline enforcement, judge scoring, and automated rewards.

Foodprime: Next.js, TypeScript, Tailwind CSS, Express.js, BetterAuth, Prisma, PostgreSQL | [GitHub](#) / [Live](#)

- Built a full-stack food delivery platform allowing customers to browse and order meals, providers to manage food offerings, and admins to oversee the overall system.
- Implemented a full order state machine (pending → confirmed → preparing → out for delivery → delivered) with structured menu and category management.

Education

Higher Secondary Certificate (HSC) — Kushtia Islamia College (Expected 2026)

Certifications

- Complete Web Development Course — Programming Hero
- Next Level Web Development Course — Programming Hero
